-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **CLAIMS**

### **112 First Paragraph Rejection**

1. Claims 21-22 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

In claim 21, line 4, it defines that “a **second position** in which it **extends** away from the housing”, then in lines 5-6, it calls for “an inner surface which **lies against said housing** when in said **second position**”. It appears that they are contradicting each other, because if the second position is defined as an extended position, then there will be nothing which lies against the housing in the same second position.

### **Art Rejection**

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 2642

3. Claims 21-22, as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Leifer (US 5793865).

Regarding claim 21, Leifer shows a headset comprising:

A pivotal microphone arm (30) having a first position (fig. 5) and a second position (fig. 1);

A housing (14);

A hinge link (50);

The arm (30) having an outer surface (facing the face in fig. 5), and an inner surface (facing 14 in fig. 5) which lies against the housing (14); and

A visual indicator (46).

Regarding claim 22, Leifer shows a headset comprising:

A pivotal microphone arm (30) having a first position (fig. 5) and a second position (fig. 1);

A housing (14);

A hinge link (50);

The arm (30) having an outer surface (facing the face in fig. 5), and an inner surface (facing 14 in fig. 5) which lies against the housing (14);

An aperture (for 32); and

A visual indicator (46).
